## The only **Biologically Alive** Skincare Cream in the World

### 100% Natural – 0% Bull

'theCream' only uses pure and effective natural ingredients. No chemicals. No heavy metals. No mineral oil. No petrochemicals. No alcohol. No parabens. No preservatives. No fillers. No added water. All formulations are waterless, which means they are in their most effective and concentrated form. All formulations are clinically tested and EU cosmetics safety approved.

75% Colostrum forms the base of this cream, sourced from New Zealand. It is the most powerful, cell-building and complete all-natural ingredient known, recognised, accepted, and naturally utilized by our cells.

The creator of 'theCream' Denie Hiestand, was originally a very successful New Zealand dairy farmer. 20 years ago he became immersed in natural health, and how the body worked electrically, writing a book "Electrical Nutrition". Discovering he had remarkable powers as a spiritual healer, he moved to America and became extremely sought after for his healing abilities.

About 10 years ago he noticed a huge increase in breast cancer, infertility, and Alzheimer's and he put it down to the chemical toxicity from moisturisers and cosmetics. "The body does not know what to do with all of the toxins so it stores them in the body. Your skin is the largest organ on your body and by using chemical filled moisturisers, you are putting 800,000 million molecules of death into your bloodstream a day" he says.

He has 5,000 breast cancer patients on his books. One day a patient of his with stage 4 breast cancer, who he had taken off all skincare cream, said to him, "Denie, a woman has a right to be beautiful, why don't you make something that gives us beautiful skin that doesn't kill us".

He said a light bulb went off inside his head and he set about doing just that.

He wanted a biologically alive skin care cream, something that you could put on your skin, and your cells would know what it is. He spent a lot of time at makeup counters all over America and could not find a single one.

Being a farmer he knew about the power of colostrum, (The 1st milk produced by all mammals) the most powerful first, life giving substance known. It fortifies, repairs and rebuilds every cell in the body. However, what he needed to do was find a way to get the colostrum through to the dermal layers of the skin. He was told by so called experts it could not be done. 8 years later, he succeeded and brought us 'theCream'.

***This cream is the first biologically alive skin care cream in the world..***

### Why the Pink Cow?

Because they support the anti-cancer efforts in woman's health by offering chemical free skincare with only natural products.

### Why are the words "the Cream" upside-down?

Because they are turning the skincare industry upside-down with their revolutionary formulations.

A world renowned skincare specialist had this to say about 'theCream'...

***"This is the only cream that you should use on your skin from a newborn baby to your death. This is the only cream I have seen in my lifetime that actually gives life to a cell."***
