

Colostrum Skin Cream

Scientific & Medical Research Related to Colostrum

“Colostrum is an amazing resource of substances necessary to support the development and repair of cells and skin tissue.”

Alfred Fox, Ph.D., & Anthony Kleinsmith, Ph.D.

The components of bovine colostrum are compatible with almost any species and can readily convey its full benefits to humans.

Colostrum used for wound healing. *Science. 219 (4590): 1329-31.*

Effect of growth factors on wound healing. *Journal of Surgery Res. 59:236-244.*

Treatment of severe eye dryness and problematic eye lesions with bovine colostrum. *Advanced Experimental Medicine and Biology. 350:595-9.*

Antioxidant properties of Colostrum. *Pediatric Research. 24(1):14-9.*

Bovine Colostrum Immunity, and the Aging Process. *Rona, Zoltan M.D. Nature's Impact, August 1998.*

Colostrum slows the aging process. *Yu B., Kang C., Kim D. (1998) BioFactors. 7:93-101.*

Anabolic and tissue repair functions of recombinant insulin-like growth factor of Colostrum. *Scottner A., Arrhenius-Nyberg V., Kanje M., Fryklund L. (1990) Acta Pediatric Scand. 367:63-66.*

Anti-Aging breakthrough - Colostrum: *Demarco, C. (1998)*

Colostrum accelerates recovery of damaged muscle and cartilage. *Bricker D. (1991) The American Chiropractor.*

Colostrum can help in wound healing. Effect of growth factors on cell proliferation and epithelialization in **human skin**. *Bhora F, Dunkin B, Batzri S, et al. (1995) Journal of Surgery Res. 59:236-244.*

New Science

We use 'quantum physics' and energy field concepts to create the most bio-active, natural beauty cream.

We do not use water as a base. Everything is built around Colostrum as the main active ingredient.

We give the skin everything it needs to support its biological life, to enhance its health, function and beauty.

theCream®
a different level of thinking
nature + science = perfection

New Skin Care Revolution

Colostrum – simply the most powerful, life-giving, natural substance known

The biologically active components of Colostrum include:

Immune Factors, which regulate the functioning of the immune system and include: Thymosin, Proline-rich peptide (PRP), Cytokines, and Lymphokines, Immunoglobins (IgG, IgM, IgA), Transfer factors, Lactoferrin, Transferrin, Lysozyme, Lactoperoxidase, Xanthine Oxidase, White blood cells (leukocytes), Oligosaccharides and glycoconjugates.

Growth Factors, including growth hormone that *has a direct effect on almost every cell type* and significantly influence the proliferation of new cells, limiting the ongoing deterioration *of cells associated with the aging process*.

Insulin-like growth factors, (IGFs) are also *responsible for the processes by which cells grow and reproduce*. Part of the IGFBP Superfamily includes: Transforming growth factors A & B which induce transformation of cells from an immature form to a mature functional status.

Epithelial growth factors, which helps in the generation and maintenance of cells in the *epithelial layers of the skin*.

Fibroblast growth factor, associated with *regeneration of various types of tissue, including skin*. Platelet-derived growth factors responsible for generation of cells.

Metabolic Factors, including Leptin, Insulin, Vitamin-binding proteins, Fat-associated vitamins (such as vitamins A, D, E and K), Mineral-binding proteins, Cyclic adenosine monophosphate (cAMP), and Enzyme inhibitors.

Healthy skin = Beautiful Skin

"I am a medical doctor board certified in anti ageing and regenerative medicine. I have been using 'theCream' for the last 6 months and am highly impressed with the product."

Dr. Ahmed Haffejie
South Africa

Our cream is a gift of life, to all life, and very much life-enhancing, health-promoting and beautifying for every skin cell.

The Promise

A breast cancer client of the founder of our company inspired the development of theCream.

When lying on his clinic table, with tears running down her cheeks, she looked into his soul with her beautiful eyes and asked, "Why don't you create a skin cream that gives us beautiful skin that doesn't kill us?"

The founder of **theCream** gave you his word, and now after 8 years of research and development **theCream** is now available to the world.

New Skin Care Revolution

Skin Superfood

All of our creams are Colostrum-based and
work at a cellular level to enhance skin
health and beauty
100% natural

*"Chemical free for
healthy families"*

Dr. S. Blake calls Colostrum, **'The Forgotten Miracle'** and goes on to say, *"The unique property of bovine colostrum is that it is a universal donor for all mammals (that includes us). Colostrum contains a balanced proportion of growth factors that are required for growth and healing. I have found the **Colostrum cream** is the best topical healing agent I have ever used in 26 years of practice. It contains Lactoferrins, which have natural antimicrobial activity. It contains essential oils and vitamin A, B groups, C, D and E, all 22 amino acids and trace minerals. I have used it on open wounds, suture lines, abscesses, ruptured cysts, warts, dry and moist dermatitis, insect bites, burns, etc. and have found it to be the most effective product I have used in clinical practice."*

An amazing story....

*"When I arrived in the UK I started to see a guy, Eddy, who had only 3 days before I met him fallen on some glass which left a massive gash (105 sutures) in his back and pierced his lung. He spent a few days in a London Hospital getting stitched up and monitored, etc. Anyway, the nurse in me relished this chance to look after someone so I promptly gifted my cream to him to help this huge wound heal. The other thing that happened was that while he was in hospital he contracted and then, obviously, tested positive for the superbug MRSA (methicillin resistant staph aureus) but when he was rushed back in to treat it and tested for it again it had gone. The doctors were surprised because it's the kind of bug that kills people and never disappears on its own. Eddy told them he had been using **theCream** on the wound and one doctor asked Eddy if he knew how he could buy shares in the company that made **theCream**." Katie*

New Skin Care Revolution

What's in 'theCream'?

A good skin cream should have as a minimum; a bio-active protein, an oxygenator, vitamins, minerals, moisturizer, softeners, Folic and Amino Acids, as well as trace minerals all in their natural form.

We go far beyond that. As well as the above, we have natural **Growth Factors** that increase Collagen up to 115%, Elastin by 7% and a reduction in depth of eye fine lines by 9%. Also, a **Healing Factor** that helps decrease the inflammatory process.

Plus, all of our creams are loaded with naturally occurring **Vitamins A, C, D, E, B1, B2, B6, B12**, Folic and all 22 Amino Acids and trace minerals to synchronize cellular harmony.

Our all-natural ingredients are: Colostrum; Coconut/Palm; Organic Aloe Vera; MSM (plant salts); Rice Bran (Tocotrienol Vit. E); Emu; Sea Meadow Foam; Apricot; Hemp; Silica; Organic Bentonite clay; Blueberry; Colloidal Silver; Zinc Oxide; Hydrogen Peroxide; Orange; Vanilla; Black Currant; Sunflower; Annuus; Cardiospermum Halicacabum; Crocus Chrysanthus; Rosemary.

That's it! Just life and 100% healthy, 0% Bull.

Benefit Range:

- Smoothes lines and wrinkles
- Improves skin tone
- Increases firmness and elasticity
- Environmental protection (sun, wind, etc.)
- Damage repair
- Vitality restorer
- Irritation relief
- Moisturizer
- Skin conditioner
- Fine line reduction
- Collagen enhancer
- Elastin enhancer
- Tired & stressed eye reliever
- Inflammation reduction
- Healing enhancer
- Dry or chapped lip reliever
- Cold sore / lip damage repair

Product Range: Face Cream, Men's Cream, Hand Cream, Body Cream, Eye Serum, Repair Cream, Lip Cream, Personal Relief Cream, Body Elixir Oil, Facial Serum & Facial Cleanse. Each cream has a different ratio and a different mix of the ingredients listed, to enhance their effectiveness for their required use.

The advertisement features two product bottles on the left: a white bottle for 'the cream face' and a black bottle for 'the cream men'. Both bottles are labeled '100% Natural', '75% Colostrum', and '0% Bull'. The text 'Yes! to beauty naturally' is written in a large, stylized font across the center. On the right, there is a close-up of a woman's face. The 'the cream' logo, featuring a pink bull silhouette, is visible in the bottom right corner. Contact information is provided at the bottom center: www.theCream.com, info@thecream.com, and +1.702.685.8297.
